

Shallow Well Jet Pumps CTJ2 Series

The CTJ2 Rangemate Series are a tough and reliable single impeller cast iron jet pumps that provide high discharge pressures and high flow rates. These pumps are designed for pressure boosting from underground tanks, dams and rivers and shallow bores and are ideal for irrigation, wash-down and pressure boosting.

The CTJ2 Series are available with an automatic pressure controller or a conventional pressure switch and tank for off-grid applications.

Features

- Twin impeller.
- Self-priming.
- Quiet operation.
- Efficient power consumption.
- Electrophoretic coated to protect against corrosion.

Applications

- Water transfer (tank filling).
- Pressure boosting.
- Shallow well bores.
- Stock watering.
- Garden sprinklers.
- Industrial wash-down.

Performance Table

Model	Item Number	Power		Max Flow Lpm	Max Head (M)	Max Suction (M)	Inlet / Outlet
		kW	V				
CTJ2-150	08381050210	1.5	240	160	46.5	7	1 1/2" x 1"
CTJ2-200	08381050220	2			53		
CTJ2-300	08381050310	3			56
