

## Submersible Drainer Pumps SM-DW Series

DIY Friendly

Retail Box

The SM-DW400A and SM-DW750A Sumpmate are your go to pumps for draining after flooding, general irrigation, liquid transfer and many other applications where the water is dirty or considered 'grey'. Fully submersible to an impressive 7m, these pumps are capable of passing solid non-abrasive debris up to 35mm without clogging. They feature complete automatic operation via the float switch, ensuring your pump never runs dry and will not overheat.

### Features

- Drains water level to 5mm.
- Handles debris up to 35mm.
- Fully submersible.
- Durable polymer pump body.
- 25, 32, 38mm pipe attachments.
- 10 metre power cable.

### Applications

- General irrigation.
- Ponds.
- Sump drainage.
- Liquid transfer.
- Basements.

### Performance Table

Model	Power		Max. Flow Lpm	Max. Head (m)	Max. Depth (m)	Spherical Solid Handling (mm)
	kW	Voltage				
SM-DW400A	0.4	230	133.3	5	7	35
SM-DW750A	0.75	230	216.7	8	7	35
